

MCF Housing for Seniors is Calgary's leading provider of safe and affordable housing for low and moderate income seniors. Since 1962, MCF offers independent and supported living accommodations in a variety of lodge, apartment, townhouse and cottage-style units throughout the city. A non-profit organization, MCF provided accommodations to over 1,700 seniors in Calgary in 2009.

The Shawnessy Lodge expansion project is an example of how MCF recognizes a need in our community and does something about it. MCF's Shawnessy Lodge is a 66-suite supported living lodge. These 66 units serve the entire southwest and far southeast quadrants of the city. The waiting list continues to grow and seniors desperately needing this type of living accommodation are waiting well over a year.

MCF's Shawnessy Lodge expansion includes the addition of 15 much needed barrier-free units for seniors who depend on wheelchair accessible amenities. MCF has secured 50% of the \$3.2 million needed to fund this project - \$1.6 million is still needed to complete the project.

Your support is critical to our success.

Every senior deserves to live in a safe and appropriate home. No senior should have to live in fear of their safety, without nutritious and adequate food, or in isolation from society because they cannot afford the market rents.

Help us make this expansion project a success and change the lives of our city's seniors.

Thank you.
